

Center for Geologic and Climate Hazards Research Experience for Undergrads (REU) Program

The REU program at the UB Geologic and Climate Hazards Center focuses on research experiences aimed at addressing the complex planetary and societal responses to global climate change.

Impacts of
glacial outburst
flooding

Lake effect
snow - causes
and outlook

Agricultural
management
and climate

Lake Erie
shoreline
erosion

... And more!

- Gain hands-on research experience with expert faculty at UB!
- Expand your professional development skills
- **When:** May 29 - Aug 2, 2025
- **Where:** University at Buffalo, Buffalo, NY, USA
- **How to Apply:** scan the QR code or visit <https://arts-sciences.buffalo.edu/geological-and-climate-hazards>
