EVIDENCE-BASED TREATMENTS

The Psychological Services Center (PSC) specializes in delivering Evidence-Based Treatments, which are treatments that have been supported by scientific research.

The PSC operates under the Department of Psychology as a service to the community and as a training clinic for the doctoral program in clinical psychology.

The PSC is staffed by advanced graduate students who are supervised by clinical psychology faculty.

**We are now offering
tele-health services!**

Getting Started

Contact the Psychological Services Center to schedule an initial **FREE** screen appointment over the phone. This gives you the opportunity to discuss your concerns and make sure our center is the right fit for you.

After the screen you will be matched with a therapist based on your unique needs.

Your therapist will conduct a thorough psychological evaluation in order to plan the most effective treatment.

Fees

Services are provided on a sliding fee scale. We offer a reduced fee for UB students, staff, and faculty.

The PSC does not currently accept insurance. The fees charged are often the same as, or less than, the cost of the co-pay for mental health treatment required by many insurances.
